<https://github.com/Michael-Murage> | Kenya

## SUMMARY

---

Hardworking, highly skilled, self-led and reliable Full Stack Software Engineer with a strong background in creating visually appealing and user-friendly web interfaces. Experienced in collaborating with cross-functional teams to deliver high-quality web applications. Also a constant learner.

## TECHNICAL SKILLS

---

- Front-end: Angular, React, Vue, Next, Tailwind
- Back-end: Rails, Laravel, Spring Boot, MySQL, PostgreSQL
- Git
- Linux
- Figma

## EXPERIENCE

---

### Junior Full Stack Software Engineer | Yashio Kenya

July 2023 - Present | On-Site

- Worked with a team of fellow developers to build and maintain full stack software solutions for Yashio Kenya.

### Junior Developer Intern | Sasakazi

January 2023 - May 2023 | Remote

- Designed logos for a web application meant for a client of Sasakazi. I designed a few iterations of the logo to the client's satisfaction.
- Designed the architecture within which the web application would run.
- Worked on building the application both front and back end and deployed it as per the client's request

### Freelance Software Engineer

February 2021 - May 2023 | Remote

- Worked on several projects and solutions for some clients as a freelancer, it is also during this period where I started venturing a bit into open-source projects. The main ones which include Zanake and a bursary management platform that can be found below.

## EDUCATION

---

**Machakos University** | September 2016 – September 2020  
Bachelor of Science in Mathematics

## Projects

---

### **Lucie Consultancy - <https://lucieconsultancy.co.ke>**

This is a project working for a client. It was coded in React and Laravel and is a web application that also houses blogs written by the company.

### **Bursary Management Platform - [https://youtu.be/5\\_AmLKxs1jY](https://youtu.be/5_AmLKxs1jY)**

This project's aim is to digitize bursary application and allocation processes (in Kenya) according to Kirinyaga county requirements.

### **Point of Sale - <https://github.com/Michael-Murage-projects/phase-4-project-pos>**

This project is meant to simulate a point of sale system.

## Volunteer Experience

---

- **Zanake:** I contributed to an open-source project called zanake, through raising issues and contributing to tests. The project is hosted [here](https://www.npmjs.com/search?q=zanake) - <https://www.npmjs.com/search?q=zanake>

## Referees

---

- **Howard Mnengwa** - [mnengwa@hasibu.ke](mailto:mnengwa@hasibu.ke) - Software Engineer at Cellulant.
- **Victor Gichohi** - [victorgichohi48@gmail.com](mailto:victorgichohi48@gmail.com) - Software Engineer Manager MFS Africa
